

4EARTH FARMS AND TITAN FARMS FORM PARTNERSHIP

Ridge Spring, SC - Industry leaders 4Earth Farms and Titan Farms announce that they have joined forces with a shared vision to develop South Carolina as a strategic hub for the North American produce industry and promote farming and supply in the Southeast.

This facility in Ridge Spring, South Carolina, will be a year-round supply destination, offering FOB and delivered programs.

“This is a project that has been years in the making,” said David Lake, President of California-based 4Earth Farms. “Expanding our packing and shipping capability will immediately benefit our existing East Coast customers. This expansion will allow us to provide even fresher produce while being more competitive and expand our customer base by being more convenient to those retailers, we have difficulty servicing due to the distance of our West Coast location”.

“We are very excited about how this new collaboration creates economies of scale for both Titan Farms and 4Earth,” said Chalmers Carr III, C.E.O of Titan Farms. “While the infrastructure, investment, and expansion have just begun, we look forward to how it will benefit our local workers, community, and customers.”

The new facility started production in time for the Thanksgiving holiday and will ramp up in 2023 to include 4Earth Farms top value-added commodities.

About 4Earth Farms

Founded in 1993, 4Earth Farms is a woman-owned vertically integrated grower, packer, and distributor of organic, conventional, and specialty produce. From our carefully selected seed stock to our geographically diverse growing areas, we are passionate about sustainable stewardship and a dedication to innovation. We are 4Earth Farms: People. Produce. Planet.

About Titan Farms

Founded in 1999 by Chalmers and Lori Anne Carr, Titan Farms is a premier grower, packer and shipper of fresh peaches and vegetables. With core values focused on producing the highest quality produce in the market, you are sure to take home the freshest produce they have available. Today, Titan Farms is the largest peach grower on the east coast, with over 6,200 acres of peaches, 600 acres of bell peppers, 1,000 acres of broccoli and 36 acres of eggplant. Titan Farms is a family-run operation, including long-time employees who have become part of their Titan family.
